

Wetlands in the Context of Stormwater Management

A workshop for developers, builders, planners, engineers, and others in the building community

*Presented by: Alice Thompson, Thompson & Associates Wetland Services
Bruce Moore, Water Resources Engineer – P.E., WDNR*

Workshop program will include discussion of:

- Public and private benefits of wetlands
- How poor stormwater management affects wetlands and their functional values
- Stormwater measures during construction to avoid short-term wetland impacts
- Stormwater designs for post-construction runoff to avoid long-term wetland impacts
 - How to satisfy local, county, and state stormwater requirements
 - Wetland restoration and stormwater management case studies

Date: Thursday, April 27, 9:00 am – 2:00 pm (lunch provided)
Registration and morning refreshments available at 8:30 am

Fee*: \$50 – Members of WWA \$75 – Non-members
