

## **Staff Scientist/Project Manager/Wetland Specialist**

**Title:** Wetland Restoration Specialist

**Status:** Full-time

**Location:** Menasha, WI

### **General Position Description:**

Davel Engineering & Environmental Inc. is seeking a qualified individual to primarily assist our environmental department

### **Job Description/Tasks:**

Responsibilities include but are not limited to:

- Managing projects, client needs and adhering to expectations on deliverables, timelines and budgets.
- Experience working with government agencies
- Managing wetland banks, and multiple small scale wetland restorations for conservation and compliance purposes.
- Conduct or assist with routine wetland delineations according to the USACE Wetland Delineation Manual (1987)
- Conduct botanical surveys
- Preparation of technical reports
- Attend client meetings, workshops and conferences
- Occasional overnight travel
- Soil profile evaluations for determining groundwater
- Installing groundwater monitoring wells
- Invasive species management
- Prepare supplies, trucks, survey equipment, vehicle, etc. for field work
- Track working hours
- Assist in soil sample preparation for testing
- Become a certified pesticide applicator
- Construction inspection

**Working Conditions:**

Field work will occasionally be conducted in inclement weather in farm fields, woods, etc. Hours will generally be Monday – Friday (40 hours/week) with occasional opportunities for overtime. There may be occasional out-of-town work, generally within 100 miles, with occasional overnights.

**Qualifications:**

- Bachelor's degree or higher
- Minimum 2 years (5+ preferred) of experience conducting wetland restoration and/or wetland delineation work
- Good oral and written communication with staff, supervisors and clients
- Proficient at technical writing and formatting
- Proficient at using Microsoft Office and willingness to learn new software including but not limited to CAD, ArcGIS, Trimble, etc.

**Opportunities:**

Davel Engineering will provide for opportunities and pay for, including hourly pay to attend continuing education, workshops, etc. This position provides an opportunity to gain experience, and provides the opportunity to move up into management positions.
